

Effective: 23 March 2023

At Keysight Technologies Deutschland GmbH locations (Böblingen and Braunschweig), confidentiality, availability and integrity of information have great value. We have taken extensive measures on the protection of sensitive and/or confidential information. Therefore, we follow the question catalogue of information security of the German Association of the Automotive Industry (VDA ISA). An Assessment was conducted by an audit provider, in this case the TISAX audit provider DEKRA Certification GmbH. The result of the assessment is exclusively retrievable over the ENX Portal: <https://portal.enx.com/en-US/TISAX/>.

The ENX Association supports with TISAX (Trusted Information Security Assessment Exchange) on behalf of VDA the common acceptance of Information Security Assessments in the automotive industry. The TISAX Assessments are conducted by accredited audit providers that demonstrate their qualification at regular intervals. TISAX and TISAX results are not intended for the general-public.

This statement is approved by Keysight's executive management and applies to the noted Keysight operations.
